

GAZ DE FRANCE

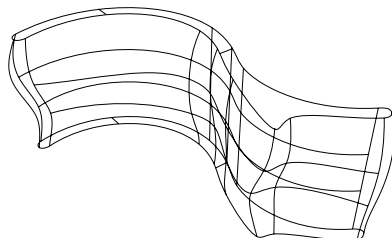

LNG Congress
Barcelona
150 sq. m.

For its participation in the World LNG Congress, Gaz de France asked the agency to create a space where it could express its values and ambitions.

evoked group ambitions. A luminous strip unifies the whole and provides the various trades at Gaz de France with a space to communicate.

A monumental sculpture with organic shapes expresses technicality, innovation and corporate involvement in sustainable development. In a continuous line, a point-fixed glass wall combines with it to

The original architectural approach and the bright, fresh colours bestow upon Gaz de France the position of pioneer and leader it seeks in the liquefied natural gas sector.

- Deployment : International business
